

## Meeting Summary

Date: Saturday, 26th April 2025

Attendees:

- Eman (Project Owner)
- Ahmed Abuzid (Developer)

### Key Points Discussed with the Customer

- - Categories should appear on the same page using a dropdown list.
- - No navigation bar is required for this section.
- - The customer only needs two categories.
- - The 'Publish' option will be implemented as a dropdown list.
- - The 'Publish' dropdown will link to three pages, each handling a different content type: one for articles, one for uploading videos, and one for recording audio.
- - Audio recording should be limited to a maximum of 5 minutes using a timer restriction.
- - The admin will delete users by username, not by ID.
- - The admin will delete content by username, not by ID.
- - Notifications on the homepage will be shown using a dropdown list.
- - Posts will be fully visible in their place (i.e., not clickable or expandable).
- - The High-Level Diagram should only include features that interact with other modules.
- - The database will not be shown in the sequence diagrams across the project.
